TSgt George Crews lets the wives sample an AF meal.

WIVES' DAY HELD

The Hilltopper Wives' Club was host to 45 wives of new arrivals and lower four airmen at an afternoon coffee and site tour. Lt. Col. T. W. Blackburn, 798th Commander, presented a slide briefing on NORAD and discussed the operation of the site.

ST LOUIS NCC DEFENSE SHOWN

Lt. Col. T. W. Blackburn, 798th Commander, joined with Col. Clarence Marsh, NCC Commander, and Lt. Col. Donald McNair, 1st Missile Battalion Commander, in appearing on the Charlotte Peters' Show over KSD-TV this month. As Miss Peters' guests, See TELECAST page 4

SOFTBALL HONORS TAKEN BY 798TH

Behind the steady pitching of Harold Ramsey, and the able managing of Jim Allen, the Hilltoppers breezed through to victory in the Chicago Sector Softball Tournament and repeated the feat in the 30th Air Division (SAGE) tourney for all RADRONs. The Hilltopper nine were undefeated in six encounters.

Both tournaments were held at Rockville AFS, Indiana.

The 798th sluggers opened the CHADS contest by thumping the host Rockville team 10-3. The following day they outscored the 791st RADRON of Hanna City, Ill. 3-1.

NCO'S-YOUR ROLE IN THE AIR FORCE

No doubt exists that military and civilian life is basically different. Stop and think, "Why is this true?" We all want happiness, comfort, security, recognition, etc. The difference is that of attitude - the Air Force collective attitude of all for one. You might say this attitude is one of feeling. The feeling of being needed and wanted. This is careerism. You discuss this varied subject daily. You have heard the remark "Oh, he's just a first term" or "Well, I should know, I'm on my third hitch." Many feel that career thinking is based on time. It is definitely not! A person with two years service could be more career minded than one with 18 years service.

This is where military life is different. Individually we are different and pursue varied professions but collectively we are united. Any man in the USAF must be considered on the positive side of careerism. You cannot react toward the young airmen in a negative sense and then on the day of judgement four years hence, wonder why they do not possess the attitude of careerism.

Our responsibilities, as Noncommissioned Officers, are clearly outlined in AFR 39-6. We have been delegated the responsibility of leading and supervising these young men under our control. As it is written we must ACT. (MSgt. Carlos Lopez, Retention NCO, Building 201. Phone: 224.)

One of the less happy results of the technological explosion in which we are living has been the growth of a feeling that the black boxes are taking over from men. Automation seems to be giving humans an inferiority complex.

Don't ever make the mistake of falling into this mental trap. The Air Force--today and in the future--will continue to be run by tough, dedicated professionals of which you are one. It is an organization of people, not a collection of machines. We have yet to build an electronic brain which can come up with original thoughts, or display courage and love of liberty. Nor can a machine

AF AID SOCIETY EXTENDED

The Air Force Aid Society drive started this month with a deadline of Aug. 15. Due to a low 50% participation, the drive has been extended to Aug. 27.

During the 16 years of its operations, the Society has helped Air Force men and their dependents with a variety of programs.

Two of the best known, the General Henry H. Arnold Educational Fund, helps to provide college education for dependents of Air Force personnel; and Children Have a Potential (CHAP), provides help for disabled children.

A contribution of one dollar will make you a participant of the program for one year.

AIRMAN OF THE MONTH

Selected as the 798th RADRON Airmen of the Month is A1C William E. Bushelle, Administrative Specialist of the C&E section.

Airman Bushelle entered the Air Force in Feb. 59. He served a tour in Pakistan before his arrival to the 798th RADRON.

His sense of responsibility, reliability and the outstanding manner in which he performs his duties contributed to his selection.

GOLF GIRL—One of the main attractions at this Miami Beach golf course, and captain of its squad of girl caddies, is pretty Patty Glander, our Calendar Girl for September.

CAPSULE LAW FOR YOU

"...Let the car go—I just can't keep up!"

When you let the finance company repossess your automobile; you will more than likely have to pay a deficiency balance.

This means you will have to pay the difference of what the finance company sells your car for and what you still owe on your loan.

This could amount to a great deal of money and you will have to pay at once--now. If you are thinking about repossession--stop to think and investigate.

LETTER CONTEST OPENED

The theme for the 1962 Freedoms Foundation letter writing contest, which opened on July 22, is "My Freedoms and My Responsibilities." Hundreds of Air Force and other service members are expected to submit entries in quest of the \$8,500 in cash awards offered for the best 101 letters.

The top prize in the contest, which closes on November 1, is \$1,000 and the George Washington Honor Medal. The next best 50 letters will receive \$100 each and a medal, with the final 50 winners being rewarded with a \$50 cash prize and a medal.

The contest is open to all members of the U.S. Armed Forces on active duty. Letters should be of 100 to 500 words on the announced theme. Each entry should include the writer's signature in full, rank, serial number, branch of service, unit and home address.

This year's military phase of the program is based on a statement by Defense Secretary Robert S. McNamara that, "Our fighting men should know the positive values of the freedoms which the nation is calling them to serve."

For further guidance and to submit your entry contact 1st Lt. Jack M. Shuttleworth, the Project Officer. (AFNS)

COMMUNISM AND YOU

COMMUNISM UNDER KHRUSHCHEV

Sputniks represent a triumph of the machine. Machines have presented a problem to Khrushchev, the present party leader. When the Communists started producing the machine they forgot about "man". This has resulted in unrest among the workers--strikes and revolt. The workers have demanded more freedom and consumer goods. Khrushchev has granted some freedom.

Khrushchev continued his "liberalization" program by visits outside Russia. He urged even total disarmament in the interest of "peaceful co-existence".

Not long after a visit to this country, Khrushchev was in China. He stated that now as in the past, the Communist-bloc was in opposition to capitalistic wars but not to "just" or Communist wars. The new look has not fooled anyone.

Man's striving for freedom will bring about the ultimate fall of Communism.

798TH OFFICERS ENROLL IN LANGUAGE COURSE

Six squadron officers have enrolled in the USAFI Spanish class this fall.

This is in line with Air Force policy for all officers to be bilingual.

World of Sports

(Continued from page 1)

In the tournament final, Sam Wooden's long home run enabled the Hilltoppers to edge out Hanna City 5-4 in 10 innings. This victory enabled them to represent the Chicago Sector in the 30th Air Division (SAGE) tourney which was held to determine the winner of all Radar Squadrons.

After winning three straight in the CHADS event, Harold Ramsey continued his ace pitching performance and allowed the Duluth Sector entry, Baudette AFS, Minn. one lone run as his teammates tallied 6 times for an easy win in the opener.

The Sioux Ste. Marie entry jumped off to a 1-0 lead in the second game and held the Hilltoppers scoreless for 5 innings. In the sixth, Sam Wooden clouted a 2-run homer to take the lead and from

then on the "Toppers" pounded out an easy 12-1 victory.

With the championship at stake, the Hilltoppers were not to be surpassed in their final game as they met the Sioux Ste. Marie nine once again. They led all the way in their 4-3 win.

Playing as the RADRON All-Stars in the 30th Division-wide tourney, they dropped a 4-1 decision to the Duluth ball club for their first defeat in three tournaments.

Two unearned runs in the 5th inning proved fatal for the All-Stars at Truax Field squeaked out a 3-1 win, thereby eliminating the All-Stars from further play.

Nevertheless, a well earned "congratulations" to our Hilltoppers for a very fine showing.

GOLF

A squadron "hidden hole" golf tournament was recently held at the nearby Scott AFB golf course. Walking off with the top prize of low gross score was MSgt. Billy F. Bono.

Other winners in the contest were: low net, Captain Miller; fewest putts and closest to hole in 1, Captain Cullop; low net (front 9), MSgt. Lopez; low net (back 9), Captain Miller.
